Colors - choose a bright novelty print for the center and a coordinating fabric for the frame to make a fun quilt with all the colors of the rainbow. This will make a great I-Spy donation for kids.

** The layout I have in mind uses horizontal blocks; something to keep in mind if you are using directional fabric.

Fabric:

Background - (2) 4" squares, cut once on the diagonal and
2 strips at 2' x 6 1/2"

Novelty print - one 4 3/4" square

Piecing

Sew two triangles to opposite sides of the novelty print. Be sure to align the **diagonal** edge of the triangle with the side of the center square. Press outwards to the corners. Add the remaining two triangles in the same manner. Trim the square-in-a-square (SIS) unit to 6 1/2".

Sew the background rectangles to opposite sides of the SIS unit. Trim the final block to 6 1/2" x 9 1/2".
